GLADIOLUS BULBS

Plant Sherman's beautiful named varieties of Gladioli. Attractive colors. Large Number One grade bulbs.

BEACON—Rose-salmon with rich cream blotch extending deep into the throat. One of the very finest.

BETTY NUTHALL—Glowing orange-pink with light yellow throat. Veins on lower throat petals carmine red.

FLAMING SWORD—Bright red. Rich in color with good height.

GOLD EAGLE—Early blooming variety. Deep yellow.

MAID OF ORLEANS—Pure white with touch of cream in throat.

MARGARET FULTON—Rich dark salmon. Good cut flower.

PARADISE—Apricot with narrow line of scarlet in throat.

PEGGY LOU—The very latest clear shrimp pink.

PELLIGRINA—The best dark blue. A first class bloomer.

PHYLLIS McQUISTON—Deep glowing pink. Very large flowers.

PICARDY—Florets massive of a fine shrimp pink color. Most valuable for cutting and decorative purposes.

QUEEN OF BRENNEN—Early bloomer. Beautiful shade of lilac-lavender.

RED PHIPPS—Soft red, lighter in throat. Long flower heads.

Price: 6 for 75c; 12 for \$1.35; 25 for \$2.45; 100 for \$8.95.

SHERMAN NURSERY OFFICE BUILDING

Buy Direct From the Grower

By buying nursery stock direct from the grower you not only receive nursery stock in fresh planting condition, carefully packed and scientifically handled, but you also save the middleman's profit. We offer every item in our list at "Rock Bottom" prices, high quality considered, to save you money.

Quality of Stock

Our stock is carefully graded and properly packed in our large storage where it receives all possible protection. Should any part of any order be unsatisfactory to you when received, we will promptly refill and reship other stock without additional charge, providing you notify us immediately on receipt of your shipment.

EXTRA GOOD STORAGE FACILITIES

Nearly 1 1/2 acres (60,000 sq. ft.) under the one roof of our cellar. Underground storage insures even temperature with proper humidity. Your deciduous stock will be received in A-No. 1 condition.

SHERMAN'S GUARANTEE

We guarantee to deliver nursery stock in good, growing condition and will replace immediately, upon notification, any items not proving as such if notified within 10 days of arrival of the shipment. Please remember, a plant is a living thing the same as any animal or human being. It feeds, drinks and breathes, and is subject to attacks of insects, disease and drought. We therefore make any replacement of stock failing to grow at one-half catalog price, thereby assuming one-half the responsibility for the failure and you assume the other half.

We warrant our stock to be true to name, with the expressed understanding that should any not prove so, we will refund the money paid or replace it with other stock, but in no case shall we be liable for damages beyond the original purchase price of said item.

Planting Instruction Booklet FREE!

A Free 24-page Planting Instruction Booklet is sent with every nursery order. This booklet tells in a clear, simple manner, just how to plant so that even if you have not had previous experience with planting trees and shrubs you can be assured of success. It also tells you how to prune, water and care for your planting, together with the proper distances for spacing your trees, shrubs or plants.

SHARE YOUR CATALOG

The Federal Government has restricted the use of paper, so after ordering, please loan your catalog to a friend.

Iowa State Sales Tax

We are required by the State of Iowa to collect 2 per cent Iowa State Sales tax on all orders delivered within the State of Iowa. Iowa customers please include this tax with your remittance.

Federal Sales Tax

If a Federal National Sales Tax is passed by Congress, we will be required to collect the amount of the tax on all orders.

TERMS OF SALE

Our terms are cash with order. Send check, money order, or draft. Please send cash by registered mail only. On orders of less than \$1.00, add 25c to cover cost of packing and postage.

One Moment Please

Here is your copy of Sherman's Spring 1945 Catalog of Hardy, Northern-grown trees, shrubs, fruits and flowers. We feel confident you will find many items of interest in this catalog.

Established in 1884, the Sherman Nursery Company has been located in northern Iowa for over 60 years. Our nursery started with only a few acres, as do most nurseries, and has grown through satisfactory dealing with its customers until it is now one of the largest nurseries in the state of Iowa. **WE AIM TO PLEASE.**

PLEASE NOTE

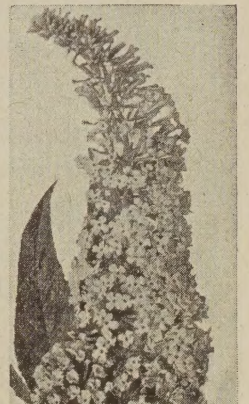

Most items in this catalog are DELIVERED TO YOU, POSTPAID. Some Fruit and Shade trees, and Evergreens are too large to go by parcel post. They are shipped by express, you pay the express charges.

In some orders, there are trees which must go by express and also some stock which would go by parcel post. In order to avoid making two separate shipments, we send the entire order by express. For this privilege, we include extra stock which has a greater value than the additional express charges amount to.

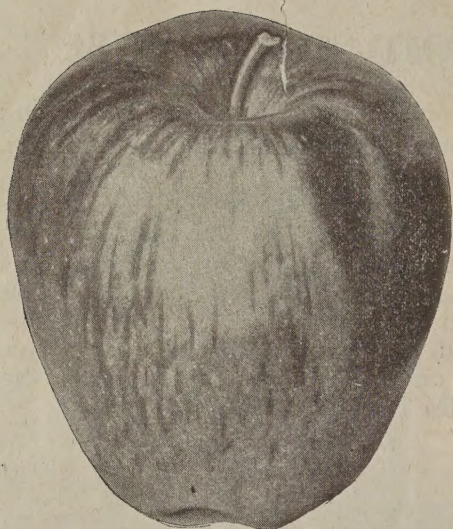

FREE PREMIUMS

FOR EARLY ORDERS!

Send us your order of \$3.00 or over prior to March 1st and we shall be pleased to include as a free premium one of Sherman's new hardy Butterfly Bush (Salicaria) which produces large spikes of pink blooms all summer long.

Salicaria

Delicious

SUMMER APPLES

ANOKA—The popular new apple that generally starts bearing the next year after planting. Fresh apple pie in two years' time. Attractive yellow fruit, streaked red. Good flavor. Ripens in August. Hardy.

DUCHESS—An excellent mid-summer apple for cooking and general use. Bears young and heavily. Fruit large, striped red. Dependable everywhere.

YELLOW TRANSPARENT—Favorite yellow summer apple. Bears abundantly every

HARDY NORTHERN

Orchards Are Profitable—Plant This Spring

"The King of Fruits"

No fruit is more healthful, more delicious, or more popular than the Apple. Apples contain all essential vitamins for health and vigor. Grow and eat plenty of apples. Plant trees 24 to 30 feet apart for best results.

	Each	Per 3	Per 6
5-7 ft. (Not Postpaid).....	\$1.50	\$4.35	\$8.40

Jonathan

WEALTHY—A great fall apple that succeeds everywhere. Fruit is large in size, striped red, tender, juicy and of excellent quality. Good for eating and cooking. Bears young and heavily.

WINTER APPLES

BRILLIANT—A splendid, late-keeping apple of large size. Very popular commercial variety, demanding the highest prices. A brilliant, bright red color, fine grained and high in flavor. Keeps well until late spring.

CORTLAND—One of America's best apples. Of large size, beautiful red color. Superb in quality. Good both for eating and cooking. Bears abundantly.

Two of Sherman's Northern Grown apples. The one at the left is the commercial 3/4 ft. grade, while the other is our heavy 5/7 ft. tree.

year. Fruits quite young. Medium-large in size, golden yellow, juicy, tender and of fine flavor. Good for both eating and cooking.

FALL APPLES

ANISIM—A dark crimson, roundish apple, free from blight and excellent in quality. Bears young and heavily. You will be well pleased with Anisim.

EASTMAN—A seedling of Fameuse, very hardy and dependable. Fruit is large, fine colored, striped with red, and hangs well to tree. A very young and constant bearing variety. We recommend it highly.

FAMEUSE (Snow)—A crimson-striped apple with snow-white flesh of very high quality. Delicious flavor.

SHERMAN'S TREES ARE BEST!

Lincoln, Ill.,
May 1, 1944.

Gentlemen: I am certainly very happy that I sent you my nursery stock order this spring. I have purchased trees of other firms but I never knew there was so much difference in the quality of nursery stock. Your trees are the best regardless of the price.

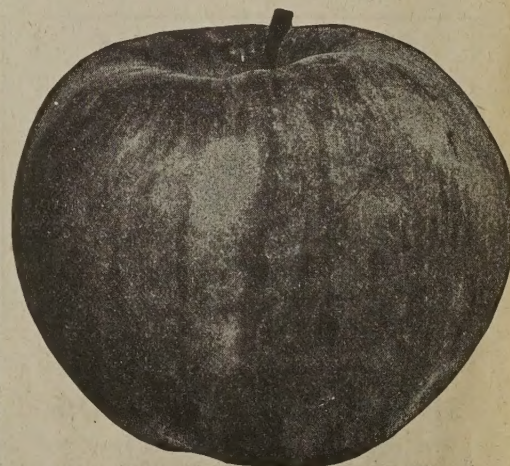

(Signed) MRS. T. W. KELSO.

"FIVE-IN-ONE APPLE SATISFIES"

Anamosa, Iowa,
August 22, 1944.

Gentlemen: In 1936 I bought one of your FIVE-IN-ONE apple trees. The tree is now of beautiful shape and has been bearing five different kinds of apples. It seems to be quite a novelty. There was a special write-up about the tree in our local newspaper. It makes me feel rather proud to own a tree of this kind as I do not know of another tree like it in our town. I understand your firm was one of the originators of the Five-in-One apple tree.

(Signed) NETTIE BROWN.

Duchess

GROWN APPLES

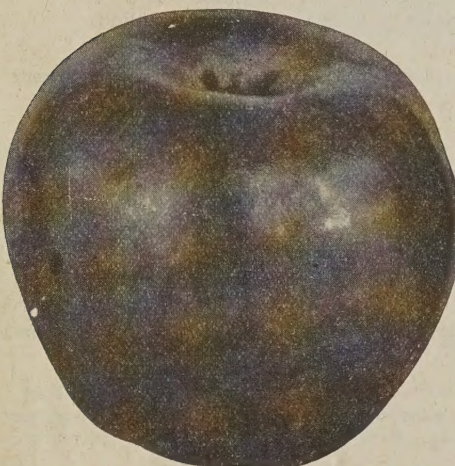

DELICIOUS—Without doubt the "perfect apple." Fruit is large, rich red with slight yellow blend, of superb quality and flavor. Has delightful aroma, tender, juicy, creamy flesh.

GRIMES GOLDEN—A golden-yellow apple filled with rich, spicy flavor. Has been a great favorite for many years. Bears young and heavily. An extra-good all-around apple.

HARALSON—One of the greatest winter apples for the North. Exceptionally hardy. Large in size, solid red, tender, juicy flesh. Excellent quality and a good keeper.

HAWKEYE GREENING—A wonderful new greening. Introduced by Iowa State College. Fruit large, greenish-yellow. Keeps very well.

JOAN—Very attractive and productive. Brilliant red in color. Fruit is large and of extra fine flavor. Hardy and dependable.

McIntosh

FIVE-IN-ONE APPLE TREE

"A City Man's Orchard"

The Sherman Nursery originated the Novelty Five-in-One apple tree over 30 years ago. These trees have given satisfaction to thousands of Sherman's customers. The 5 splendid varieties are:

- DELICIOUS ● YELLOW.
- DUCHESS ● TRANSPARENT
- JONATHAN ● WEALTHY

An excellent tree for the home owner with limited space. (See illustration in color on inside front cover, please.)

4-6 ft. trees (Not Postpaid) \$2.89 each; 2 for \$5.55.

3-5 ft. trees (Postpaid) \$2.49 each; 2 for \$4.69.

JONATHAN—Red. The best apple of all, known and liked by everyone. Bears young and abundantly. Bright red, high quality, crisp, tender and full of snap. Keeps well.

KENDALL—Hardy and vigorous. Pinkish-red color. Flesh white with good flavor and aroma. A sport of McIntosh.

MACOUN—Fruit bright crimson over pale yellow. Especially adapted for the home market.

McINTOSH RED—An attractive, well colored apple. Beautiful red skin with snow-white flesh of very high quality. Fruit keeps until late winter.

MINJON—"A Minnesota Jonathan." Very hardy and dependable; brilliant all red apple. Bears abundantly and regularly. More suited for northern territory than its parent, Jonathan.

NORTHWEST GREENING—The popular, old-time, long-keeping greening. Giant in size. Yellowish-green with crisp, juicy flesh. Splendid for cooking.

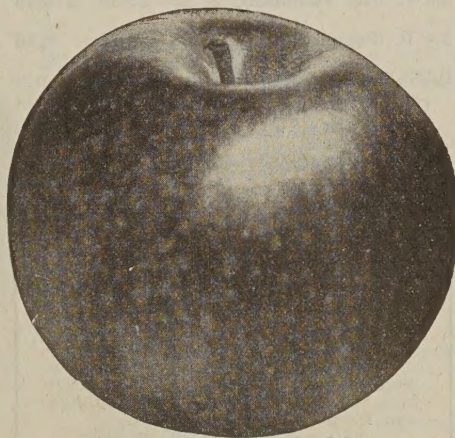

PATTEN GREENING—A very hardy apple of large size. Green in color, of good quality for eating and cooking. Keeps until mid-winter.

PRAIRIE SPY—A medium size, late winter apple. Bright red over yellow. Originated in the North, this variety is extremely hardy. An excellent keeper.

PURPLE GLORY (Blue Pearmain)—Extremely hardy, very productive, resembling Jonathan in shape and size, but is better adapted to planting throughout the Northwest. Fruit is red with bluish cast. A splendid keeping apple.

SHARON—A super-fine winter apple for the North. Large, uniform fruit, attractively striped red over yellow, quality outstanding. Flesh tender, white, juicy, with mild aromatic flavor; young, heavy bearer. Splendid for eating and cooking.

WINESAP—An old favorite in every orchard. Bears well. Fruit keeps throughout entire winter months. Medium size, red, juicy, fine flavor.

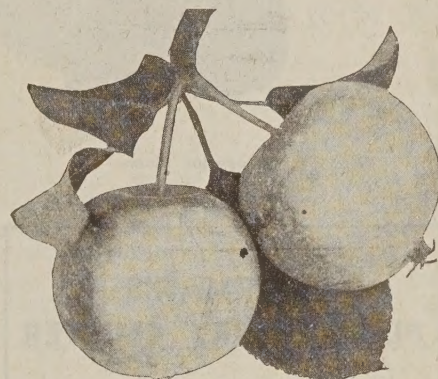

Purple Glory

Wealthy

YELLOW DELICIOUS—The superb yellow winter apple. Handsome golden color fruit of large size. Flesh firm, juicy, crisp and of distinct delicious flavor. Bears young and heavily.

Whitney Crab Apples

CRAB APPLES

HYSLOP—A dark purplish-red crab. Very good for pickling and jellies.

TRANSCENDENT—A medium size, abundant bearing crab apple. Makes excellent pickles.

VIRGINIA—A very hardy crab apple, used extensively by orchardists for hardy stock.

WHITNEY—Perhaps the most popular of all crab apples. Fruit large, light yellow, striped red. Flesh crisp. Fine for eating, pickling, or apple butter.

SHERMAN'S APPLE ORCHARD

FIEBING PRIZE—A new, big red plum that was given high award of the Fiebing Prize in 1930. A Minnesota variety. Ripens early, of extra high quality. Beautiful red color, of excellent flavor. Large in size.

HANSKA—A splendid eating and cooking plum. Large red, with apricot flavor. Flesh yellow. Very good quality.

OPATA—One of the Hansen Hybrids. Fruit medium in size, purplish red with green flesh. Very desirable.

OKA (Plum-Cherry)—Hardy. Very attractive black fruit of good quality. Flesh red. Bears heavily, producing large quantities of fruit first year after planting.

SAPA—Similar to Opata, except fruit is purplish with dark red flesh. Juicy and very good, making blood red jelly. Tree is a dwarf grower.

SUPERIOR—One of the largest and best jumbo plums. Beautiful red color, large and firm flesh. Very delicious—freestone.

TOKA—A richly flavored plum with tangy spice and delicious flavor. Fruit large, with orange-apricot skin and deep golden, firm flesh. Ripens late in August.

UNDERWOOD—Bears immense crops of large, rich red, delicious, freestone plums. One of the best, a regular cropper.

WANETA—A large, bright red plum, often exceeding 2 inches in diameter. Delicious quality, purplish-red color. Very productive.

POTTED ORNAMENTAL EVERGREENS

Grow your own fancy landscape evergreens! You may plant these small size potted evergreens in your garden or in flower pots and watch them grow into beautiful specimens for landscaping your home grounds. These trees have been grown in our greenhouses in a pot of dirt. The clay pot will be removed for shipping but the pot ball of dirt will be preserved by wrapping in paper. These trees are small in size, about 6 to 10 inches, but are certain to grow with ordinary care. We offer this season five fine landscape varieties:

ARBOR VITAE, Pyramidal—Tall, slender pyramidal grower.
ARBOR VITAE, Shermanii—Dark green foliage, growing in rather broad pyramidal form.
JUNIPER, Pfitzer—An exceptionally beautiful, flat growing tree with grey-green foliage.
JUNIPER, Savin—A tree of medium height, with fan-shaped, deep green branches.
JUNIPER, Swedish—A small-sized, handsome pyramidal tree with silvery-green foliage.

49c each; 3 for \$1.39; 6 for \$2.65

JUNIOR EVERGREENS

Many of our customers like to plant small trees and "Watch them grow." The special group of evergreens we offer at Sensational Bargain prices are just the same kind that we transplant in our nursery to grow on for developing into real specimen trees.

These trees may be planted in your garden for a year or two until they develop into beautiful trees for replanting in their permanent locations.

DECIDUOUS WINDBREAK TREES

POSTPAID

Just right for quick shelter—and valuable for woodlot and erosion control, also. Plant two rows of deciduous windbreak trees with your evergreens as protection until the evergreens mature. The deciduous trees should be spaced 3 to 4 feet apart in the row, the rows 10 feet apart. Allow 25 to 30 feet between planting of deciduous trees and evergreens. Always plant evergreens on the inner side.

GREEN ASH

The most dependable, as well as most desirable of all windbreak trees. Hardy, rapid growth, valuable for both wind protection and wood. Trees should be pruned to even height when planting, to encourage branching close to ground.

	Per 25	Per 100
12/18 in.	\$.75	\$ 2.25
18/24 in.	1.00	3.00
2/3 ft.	1.25	4.00

CAROLINA POPLAR

A wonderful tree for a quick windbreak. Grows tall (75 to 100 feet) with many large branches and large glossy leaves. Very hardy, neat—does not bear cotton like cottonwood tree. Very rapid grower.

	Per 25	Per 100
2/3 ft.	\$ 2.50	\$ 7.85
3/4 ft.	3.75	10.00

CHINESE ELM

(Siberian Type—Hardy)

A quick-growing tree for both ornamental and windbreak plantings. Neat in appearance and growth. Our trees are well branched. You will be well satisfied with Sherman's Chinese Elms.

Be Thrifty—Plant An Evergreen Windbreak This Spring!

Savings in fuel and feed for livestock quickly pay for an Evergreen Windbreak. Make Every Dollar count. Buy now and plant an Evergreen Windbreak this spring.

SHERMAN'S EVERGREENS GROW

Over 60 years of experience has gone into the development of sturdy windbreak evergreens for planting throughout the Midwest. Sherman's have spared no effort or expense in raising the best evergreens it is possible to produce.

Plant two or three rows for best protection, spacing trees 14 feet apart in the row, the rows 12 feet apart, staggering trees in rows. Plant inside row 100 feet from buildings.

SPECIAL WINDBREAK EVERGREENS NOT POSTPAID

Some of our customers prefer to plant a lighter grade of windbreak evergreen than our heavy wide-row evergreens. For many years we have featured our evergreen specialty "1215." This year we will be able to supply the famous 1215 grade in several varieties and we can also do better by supplying larger grades of the once-transplanted evergreens. The evergreens listed on this page were transplanted when they were three years old in beds and grown three to four years more. They have not been transplanted to the usual wide rows in our fields so that they will not be as bushy and heavy as our standard windbreak trees. These trees will have a root system sufficient to assure successful growth. Be sure to mark an X after the size when ordering these special windbreak evergreens.

AMERICAN ARBOR VITAE—An excellent tree for hedges and windbreaks. Dark green foliage. May be pruned if desired.

Barberry Thunbergii Hedge

ALL PRICES POSTPAID

ALPINE CURRANT

The Perfect Hedge

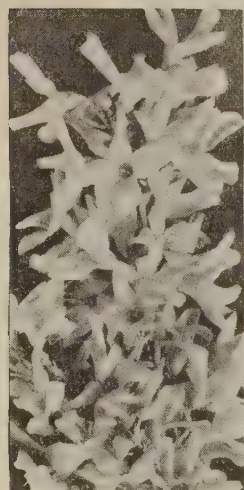

Grows very dense at the base and may be sheared and kept down to any height desired. Well adapted to the small home hedge as well as the most formal park planting.

Alpine Currant is perfectly hardy in all parts of the North. A true drought resister, it has been known to come through the driest summers without watering. It is one of the earliest shrubs to break leaf in the spring. Early frosts of autumn do not affect it. Retains its foliage late in the fall.

	Per 10	Per 25	Per 100
12/15 in.	\$2.75	\$6.25	\$22.50
15/18 in.	3.25	7.50	27.50

Beautiful Flowering Shrubs

Forsythia

Plant Flowering Shrubs for all-summer bloom. They add beauty to your home—value and enjoyment to your property. We offer shrubs that are good, strong, well branched plants. Space dwarf growers 2 feet apart, taller sorts 3 feet apart, planting in zig-zag arrangement for best effect in groups of at least three or more of a kind.

We offer below four very beautiful and popular shrubs at the following attractive prices:

	Each	2	5
18/24 in.	\$.49	\$.95	\$2.69
2/3 ft.69	1.35	3.89

POSTPAID

BARBERRY, Thunbergii—Green leaves. A dense, low, round bush making about a 3-foot globe. Useful for border and foundation plantings. Leaves change to brilliant crimson scarlet and gold in fall. Red berries during winter months.

ELDER, Cut Leaf—An attractive shrub with fern-like foliage. Hardy and rapid grower, producing attractive white blossoms.

ELDER, Golden—Worthy of a place in every planting. Bright yellow foliage throughout the summer. Berries attract birds. Should be planted in sunny location for best effect.

FORSYTHIA, Golden Bell—The first shrub to bloom in the spring. Bright yellow flowers usually appear before last trace of snow has gone, covering entire shrub before leaves appear (see full color illustration on back cover).

POPULAR SPIREAS

Spireas are always attractive. We offer seven choice varieties, offering all season bloom, at the following low price:

	Each	2	6
18/24 in.	\$.49	\$.95	\$2.69
2/3 ft.69	1.35	3.89

POSTPAID

SPIREA, Anthony Waterer—Our most popular low-growing shrub blooming constantly all summer. Large, flat clusters of deep rose-colored blossoms. Thrives anywhere.

SPIREA, Aurea (Golden)—Very desirable yellow foliage. Blossoms borne in profusion in white clusters about 2 inches in diameter.

SPIREA, Billardi—Long feathery pink plumes in mid-summer. A very attractive, upright grower 4 to 5 feet tall.

SPIREA, Bumalda (Dwarf)—An attractive shrub with narrow foliage. Rose pink blossoms. (18/24 in. grade only.)

SPIREA, Froebell—A beautiful compact shrub attaining a height of about 3 feet. Very compact bush with striking maroon-red foliage on new growth. Bright rosy-pink flowers from June until frost. Very hardy and dependable.

SPIREA, Thunbergii—Very graceful, with bright green, feathery foliage. Pure white flowers. Is very attractive when planted as a hedge or around foundation.

SPIREA, Van Houttei (Bridal Wreath)—The most popular of all Spireas. Arching branches are covered with white blossoms in spring. Very fragrant. Makes a perfect flowering hedge of medium height. Very attractive when planted near the foundation of the home.

BUTTERFLY BUSH

We offer three very attractive Butterfly Bush (Summer Lilace) each the finest of its color, and all blooming profusely from early summer to frost. They make a compact bush, four feet or so tall. The roots are hardy, but the tops die down in the winter, coming up again even more vigorously in the spring. Fine for cut flowers.

ILE DE FRANCE—Long spikes of dark claret-purple.

DUBONNET—Beautiful wine-red spikes.

PINK CHARMING—Large, compact pink spikes.

2-year heavy, 69c each; 3 for \$1.95

AMORPHA FRUITICOSA—An interesting shrub of spreading habit, with fine feathery foliage. Remarkable for, the unusual violet-purple flowers, in dense terminal spikes.

CYDONIA (Quince)—A spiny shrub with bright green, glossy leaves. Flowers are orange-scarlet, large and very showy. Grows to a height of about 5 feet.

DOGWOOD, Red Branch—A very attractive hardy shrub with showy, dark red bark. Has clusters of creamy white flowers in early spring. Bluish-white berries in fall. Grows tall. Does well in both sun or shade.

EUONYMUS, American—One of our native shrubs with dark green, glossy, oblong leaves. Very symmetrical grower. Fruit very similar to Bittersweet. Foliage very attractive during fall season.

HONEYSUCKLE, Morrowi—A shrub of medium height. Foliage dark green. White blossoms borne profusely in spring. More dwarf than other varieties of Honeysuckle.

HONEYSUCKLE, Tartarian (Pink, Red or White)—Please specify color of bloom desired—A fine tall shrub growing to a height of 8 to 10 feet. Blooms freely and carries loads of bright red berries in midsummer. Thrives well in any location.

LILAC, Persian Purple—Beautiful, small foliage. A neat growing shrub and a profuse bloomer.

LILAC, Purple (Common)—Highly recommended by many for use as ornamental hedges. Attractive purple flowers.

LILAC, Villosa—Flowers small but borne in clusters. Light purple. A very neat growing lilac.

LILAC, White (Common)—The white lilac with which everyone is familiar.

PEARL BUSH—A beautiful shrub producing large dazzling white flowers in May. One of the finest shrubs of its season.

SNOWBERRY, Red—A graceful shrub with attractive red berries. Makes an attractive bush 3 feet in height. Does exceptionally well in shade.

SNOWBERRY, White—Pink flowers in mid-summer, followed by large berries of snow white. Very showy. Plant in sun or shade.

SYRINGA (Sweet Mock Orange)—A beautiful hardy shrub. Blossoms pure white, very fragrant. Tall.

SYRINGA, Lemoinei—An attractive shrub of medium height and neat foliage. Produces dense racemes of small fragrant white flowers.

Lilac, Persian

Snowberry, Red

Dogwood, Red Branch

Tartarian Honeysuckle

Syringa, Sweet Mock Orange

"LIKES SHERMAN'S SALICARIA"

Blencoe, Iowa,
Sept. 11, 1943.

Dear Sirs: I certainly enjoy the Salicaria plant you sent me last spring. It is very showy and a fine bloomer, lasting a long time and during the hottest part of summer.

(Signed) CYRIL JIROVSKY.

ALMOND, Pink or White (Please state color)—A dwarf, early flowering shrub. Branches covered with beautiful flowers in early spring.

BARBERRY, Red Leaf—The most brilliantly colored of all shrubs. Lustrous red foliage throughout the entire summer, red berries during winter months. Plant in a sunny location (see full color illustration on back cover).

BEAUTY BUSH—A graceful shrub producing a mass of arching sprays of pale pink, tubular flowers.

HIGH BUSH CRANBERRY—A very hardy, attractive shrub bearing white flowers early in the season followed by clusters of bright red cranberry fruit.

HYDRANGEA, Arborescens—An ideal shrub for shady places. Blooms in midsummer, resembling huge snowballs. Large, heart-shaped leaves. Medium in height.

HYDRANGEA, Paniculata Grandiflora (P. G.)—Large cone-shaped blooms of creamy white, changing to rose, then purple and bronze. Blooms in late summer. Should be planted in partial shade (see full color illustration on back cover).

PURPLE FRINGE (Smoke Tree)—A bushy grower with very ornamental foliage, yellowish-purple, feathery flowers. Autumn foliage reddish-brown.

SNOWBALL—One of the best loved spring flowering shrubs. Large ball-like clusters of snow-white flowers.

SYRINGA, Virginialis—Double snowy-white blossoms produced in profusion over a long blooming season.

TAMARIX—A shrub or small tree of very graceful form. Soft, feathery cedar-like foliage. Dainty pink flowers.

VIBURNUM, Dentatum—Showy, glossy green foliage. White flat-shaped flowers followed by deep steel blue berries. Tall.

VIBURNUM, Lentago—An attractive, tall growing shrub. Flowers flat-shaped, white. Bluish black, edible berries.

WEIGELIA, Rosea—Produces a mass of brilliant pink flowers in early spring. (Not reliably hardy in northwest climates.)
